FOR IMMEDIATE RELEASE

**BOILER 2022 Exceeds Expectations- More Than 900 Attendees from
BOILER Supply Chain**

Vienna, VA – May 5, 2022 – BOILER 2022 exceeded expectations and has now been established as the premier event for the boiler supply chain. With 82 exhibitors and over 900 attendees, BOILER 2022 has launched a new era for ABMA with a focus on engaging the boiler supply chain to advance the industry.

BOILER 2022 featured a two-day expo, educational sessions on variety of timely boiler topics, mobile boiler parking lot, student participation and much, much more.

BOILER 2022 kicked off with a fantastic Welcome Reception at the historic Union Station and an out-of-this-world Opening Session keynote presentation from **Captain Chris Cassidy**, former NASA Chief Astronaut, Commander of the International Space Station and Navy Seal. Captain Cassidy is among the leaders of an exclusive and distinguished group of accomplished military astronauts who have made an impact on and beyond this world. Chris inspired attendees to believe that it's in all of us to thrive in clutch moments and successfully lead when challenges arise.

Paragraph on expo experience.

On each day of the expo, attendees had the opportunity to tour a variety of trailer-mounted and skid-mounted mobile boilers in the back parking lot of the Hyatt Regency Dallas from ABMA's Rental Boiler Group exhibiting at BOILER 2022. Nationwide Boiler, Powerhouse, and WARE provided mobile boilers for tours.

“Our goal with BOILER 2022 was to offer a unique experience for our attendees and think outside the box with our Rental Group. Attendees had the opportunity to see a variety of mobile boiler units firsthand”, stated Scott Lynch, ABMA President & CEO.

The Excellence in Boiler Innovation (EBI) Awards recognize the most cutting-edge and impactful projects in the boiler industry. Boiler projects are a collaborative effort and our goal is to highlight all partners of highly successful projects, including key component providers and the innovative forward-thinking end-user.

Recipients were selected by a panel of third-party ABMA member judges who evaluated each entry based on completeness of application along with the innovation, value and creativity of the project that addressed the desires and challenges brought forth by the end-user.

The recipients were recognized during BOILER 2022 and will be announced in Today's Boiler. ABMA is excited to share that Elliott Tool Technologies, Nationwide Boiler and WARE are the inaugural recipients of the Excellence in Boiler Innovation (EBI) Awards that were presented at BOILER 2022. [Click here](#) to read the press release for more details.

With two days of exhibition and insightful educational content, BOILER 2022 offered a unique occasion for the supply chain to connect with the leading manufacturers in the boiler industry and where engineers, operators, facility managers, heads of procurement, EPCs, technicians and consultants learned about boiler room solutions and energy efficiency opportunities.

Day two of the expo featured an academic engagement component where students and alumni from Collin College and the University of Texas in Dallas attended to engage with the boiler supply chain.

Session Topics Included:

- Rental Boiler Contingency Plans
- Role of Steam Plants in the Decarbonization of the Energy Intensive Industries
- The SCR approach for Ultra-Low NOx Emissions Compliance
- Evolution of the Boiler Technician
- Preparing for a Boiler Inspection and Optimizing Boiler Room Safety
- Analyzing the Investment – When Does a Retrofit Make Sense
- Drum Level Instrumentation with ASME Code Requirements & Preventing Violations
- The Future of Alternative Fuels in the Boiler Room

- CO Bypassing - The Impact on Emissions and Operations and Corrective Measures
- The Hidden Truth About Condensing Boiler Plant Efficiencies
- Benefits of Integrated Controls
- Revolutionizing Inspection & Cleaning with Robotics
- The Ins and Outs of Water Treatment

It was a blast getting together for our first show. Thank you for all those who attended BOILER 2022. ONWARD IN 2024! We're excited for BOILER 2024 in Denver! Mark your calendar for May 1-3, 2024 and visit [BOILER2024.com](https://www.boiler2024.com) for more details.

BOILER 2022 – ABMA Boiler Technology Conference & Expo takes place April 11-13, 2022, at the Hyatt Regency in Dallas, TX and will be the first and only event focused exclusively on the boiler supply chain. About ABMA

Since our founding in 1888, the American Boiler Manufacturers Association (ABMA) has advocated for the safe production and operation of boilers, facilitated advances in energy efficiency, and provided solutions for our member companies. Throughout our history, the boiler industry and our member base have relied on the ABMA to lead the industry as it tackles challenges and embraces opportunities in our constantly evolving sector. Through participation with ABMA, our members are better informed, connected, and positioned to thrive in today's global boiler industry. To learn more, please visit www.ABMA.com.
