HARNESS THE POWER

OF MANUFACTURING INNOVATION

RENTECH engineers build unmatched power and performance into every boiler we deliver. Our 80-acre manufacturing facility—the industry's most technologically advanced—includes heavy bay and light bay areas with direct access to rail, cross-country trucking routes and shipping facilities. We master every detail to deliver elemental power for clients worldwide. Take an expanded tour of our facilities today at www.rentechboilers.com/facilities

BOILERS FOR PEOPLE WHO KNOW AND CARE®

WWW.RENTECHBOILERS.COM

To Our Existing & Prospective Customers:

The American Boiler Manufacturers Association (ABMA) is a national trade association representing companies in commercial, institutional, industrial, heat recovery and electricity-generating boilers and combustion equipment. ABMA is dedicated to the advancement and growth of the boiler, combustion and boiler-related equipment industry.

The ABMA Member Companies listed in the Buyer's Guide represent the best of the boiler industry and are recognized leaders in their respective market segments, providing innovative products, services and solutions to the most complex of energy and environmental needs. A member company of the American Boiler Manufacturers Association is not just another steam, hot water or combustion equipment company ... not just another vendor ... each represent a tradition of excellence with an exceptional commitment and obligation to the market it serves, its customers and the public to provide safe, efficient, clean and reliable hot water, comfort heating, process steam, heat recovery and electricity-generating steam systems.

Our Buyer's Guide is a great resource to find companies with a strong sense of corporate responsibility and integrity and a drive to stay current with and connected to tomorrow's solutions to today's challenges.

This "Guide" is also available to you, 24/7, through our homepage at www.abma.com. The online version is kept up-to-date throughout the year as changes occur that necessitate updates.

Please let us know how we can enhance this resource in the future and contact us if we may be of further assistance.

Sincerely,

Scott Lynch

*Scott Lynch
President & Chief Executive Officer*

York - Shingley Global

Division of AESYS Technologies, LLC

®

Steam and Hot Water Generators for Industrial, Commercial and Institutional Applications

York-Shingley Global Serves the North American and International Markets with a complete line of packaged firetube boiler assemblies, ancillary boiler room equipment and pressure vessel products for use in Industrial, Commercial and Institutional applications worldwide.

York-Shingley Global produces equipment which meets or exceeds industry standards and provides flexible solutions for your specific application.

BFS INDUSTRIES: A TRUSTED PARTNER FOR OVER 65 YEARS

Boiler room and diesel generator support equipment represent substantial investments, and they certainly

are not to be taken lightly. That's why, when the need arises, many in the industry turn to one of the most experienced and knowledgeable experts in the field – BFS Industries!

For over 65 years, BFS has provided boiler room and diesel generator support products for industrial applications of all types. Our extensive product line includes packaged deaerator systems, boiler feed/condensate return systems and oil pumping systems. BFS' new division, Critical Fuel Systems, is focused on the fast growing "Mission Critical" diesel fuel market for data centers, hospitals and other emergency back-up power applications.

We've worked hard to meet the diverse needs of our customers, offering quality products backed by the highest level of sales and technical support. Contact us today, and see why we're considered the experts in the industry.

Directory of Members, Products and Services 2014-2015

ABMA Membership List

ABMA member companies are listed alphabetically, along with their complete addresses and telephone numbers, and the products and services they sell.

Information in this Directory is based on a survey of the membership conducted in 2014. ABMA does not assume responsibility or liability for consequences arising from the use of information provided in this Directory. Up-to-date information on ABMA members' products & services can be obtained at www.abma.com.

Companies shown in enlarged red bold also have product/service advertisements in this Directory.

Products & Services

...a list of boiler and boiler-related products and services and the ABMA member companies which provide them.

Advertisers Index

The following ABMA Member companies have generously provided support for this Directory of Members' Products and Services. In the ABMA Membership List and Products & Services listing, advertising members are distinguished by enlarged red bold type.

Steam You Can Depend On...

Eye-Hye® 
SmartLevel™
Boiler Level Indication System

New intelligence “senses the sensors” to notify operators when probes need cleaning

- assures the most accurate, dependable and reliable water level
- eliminates need for frequent blowdowns
- reduces operator exposure to hazardous areas
- expert-verified installation (Free, all-day on-site review to verify compliance to Section I of ASME Code)

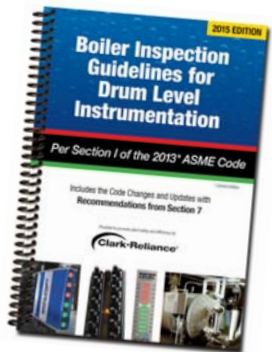

Remote indicators can be located up to one mile from the boiler...designed for efficient communication now and in the future.

Detroit® Burner Systems

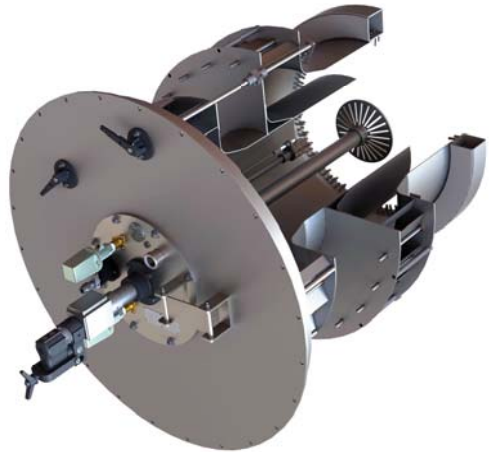

Our performance proven Burner Systems combine high efficiency and reliability as well as meeting virtually all existing federal and state air quality standards, including Boiler MACT. Detroit® Burner Systems include, Low NOx, Vertical Fired, Co-Fired and Auxiliary Burners.

Low NOx Burners

- Natural gas & oil
- Packaged or field erected boilers
- Auxiliary burners

Vertically Fired Burners

- Convert coal to gas
- Turnkey retrofits
- Reduced maintenance
- Improved reliability
- Reduced emissions
- Easy installation

Co-Fired Burners

- Provides proven combustion enhancement in existing solid fuel grate fired combustion systems
- Enhance performance
- Increase efficiency
- Improve load swing operation and turndown
- Lower operating costs
- Recover boiler derate
- Resolve emissions problems

Detroit® Burners are available in standard capacities ranging from 15 to 190 MBtu/Hr and can be installed in multiples to meet virtually any requirement for input capacity or flame length. Every burner is supported by Detroit Stoker Company's worldwide & knowledgeable construction, field service and engineering groups.

Efficiency Solutions with **NEXUS**[®]

O2 Probe

VFD Drives

Servos

Fireye's NEXUS[®] combustion efficiency systems can reduce fuel costs, typically between 5% and 7%*.

As NEXUS systems lower your fuel bill, they also reduce greenhouse gas emissions.

Saving you money and reducing emissions, that's burner efficiency with Fireye NEXUS.

*versus mechanical linkage control systems

BURNERS • IGNITERS • CONTROLS

Forney® products are trusted around the world to provide safe and efficient combustion in thousands of applications.

Founded in 1927, Forney Corporation is a global supplier of burners, igniters, and controls including flame scanners and burner management systems.

Forney's customized systems integrate these products into a comprehensive solution for controlling and monitoring combustion processes for the power generation industry.

Contact Forney today for all your combustion needs.

Dampers • Expansion Joints • Noise Control

With our relentless commitment to the consistent design and manufacture of quality products, Fox Equipment provides Damper, Expansion Joint, and Noise Control Solutions that exceed customer expectations. From design and engineering, to the materials and processes that create the products, our commitment to quality is steady. Total commitment, Total Quality, Total Service... Fox Equipment is **Quality Through Engineering.**

Fox Equipment provides a wide range of Dampers, Expansion Joints, and Noise control solutions throughout the global market for on and offshore applications such as:

- Conventional Power Plants (Coal, Oil, Gas)
- Gas Turbine & Heat Recovery
- Cement & Lime plants
- Pulp & Paper Industry
- Petrochemical Industry
- Steel Mills
- Industrial HVAC & Wind Tunnels
- Smelting plants (Zinc, Copper, Aluminum)
- Desulphurization (Wet & Dry)
- Refuse Incinerators
- Chimney & Stacks
- Dust Removal Equipment
- Industrial Furnaces
- Fan & Ventilation
- RTO (Regenerative Thermal Oxidizers)
- Waste Water

Turnkey Boiler Solutions Experts Since 1952

When it comes to boilers, we do it all.

Halgo Power designs and installs complete boiler solutions across all industries. From fabrication to start-up, commissioning and upgrades, we understand what it takes to meet your project schedule and budget goals. Using the best equipment and manpower, we customize our solutions to meet your business objectives.

Contact us to schedule your boiler consultation.

DO YOU MANUFACTURE

OR PROCESS

OR

REFINE

OR PRODUCE

OR PROVIDE ?

WE MAKE A BOILER FOR THAT.

With a full line of industry-leading, energy-efficient, low-emissions boiler room solutions, available in any size for any application, Cleaver-Brooks has a solution that's right for you. Cleaver-Brooks fully integrated systems, including boilers, burners, controls and auxiliary equipment, supply the most efficient solutions in the world. To see how Cleaver-Brooks is making businesses run better in your industry, visit our case study library at cleaverbrooks.com/casestudies or call 800-250-5883 to locate your local rep.

Single Source... Multiple Choices.

Single units and complete package systems. Compact sizes and custom designs. Oil, gas and electric power. Whatever type of boiler, heater or steam generator you require, Vapor Power is the only source you need.

With our construction, design and breadth of line, we've set the industry standard for fuel saving, process steam. We also offer the latest in combustion technology, communications and control options, including remote monitoring.

- Steam generators (*Oil, Gas*)
- High-temp hot water (*Oil, Gas*)
- Thermal fluid heaters (*Oil, Gas, Electric*)
- Superheaters (*Oil, Gas, Electric*)
- High-voltage steam boilers (*Electric*)
- Resistance-type hot water and steam boilers (*Electric*)
- Upgrade kits for steam generators and thermal fluid heaters

Let Vapor Power show you the best solution for your heating and process steam needs.

Integrity. Dependability. Real Customer Service.

RENTAL BOILERS
NEW & USED BOILERS
SCR SYSTEMS

Low NOx Rental Boilers.

And So Much More!

- Ultra Low NOx Boilers for Rent, Lease and Sale
- Self-contained Mobile Boiler Rooms
- Complete Mobile Feedwater Treatment Systems
- Up to 200,000 pph Skid-mounted Boilers Available for Immediate Delivery
- CataStak™ SCR Systems for < 5 ppm NOx
- EconoStak Economizers
- Sales and Service Offices Located Worldwide

DEDICATION LIKE NO OTHER.

Dedicated to innovation. Dedicated to reliability.
Dedicated to you.

For most, 100 years of experience and thousands of installations would be a good measure of dedication. But we prefer to prove ourselves daily. That's why our products were the first low NOx boiler burners to meet 30 ppm without using flue gas recirculation, the first to achieve 9 ppm in a package boiler, and the first to deliver sub-5 ppm in industrial steam generators. That's why we field a vast network of customer service representatives across the globe and provide support 24/7. And that's why, as a committed partner to boiler OEMs, we stay by your side until the job is done. *Let us prove our dedication to you.*

CUSTOM-BUILT TO YOUR STANDARDS. OVER-BUILT TO OURS.

**If your fan shows signs of wear, corrosion, abrasion,
or unbalance, it's time to call Robinson Fans.**

A Robinson Fans' diagnostic inspection will confirm whether you should repair, rebuild or replace your fan, regardless of original manufacturer. A redesigned or upgraded fan will increase capacity and improve efficiency.

*To schedule a visit, call 724.452.6121
or visit RobinsonFans.com.*

VALVTECHNOLOGIES

ZERO LEAKAGE

VALVE SOLUTIONS

Your Partner for Total Reliability, Safety & Performance.

ValvTechnologies is the global leader in the design & manufacture of zero-leakage valves & process solutions for severe service applications.

Through our commitment to excellence, we provide our customers with the highest levels of manufacturing quality & after-sales performance.

You'll recognize the value of ValvTechnologies as a proven, dependable partner.
