HARNESS THE POWER

OF CUSTOM ENGINEERING

When RENTECH custom engineers a boiler to your exact specs, you get **peak operation and lower emissions**. Great custom engineering starts with expert engineers—and our people are the most resourceful and experienced in the business. For durability, energy efficiency and clean operation, count on RENTECH's custom-engineered solutions. We master every detail to deliver elemental power for clients worldwide.

HARNESS THE POWER WITH RENTECH.

BOILERS FOR PEOPLE WHO KNOW AND CARE®

TO OUR EXISTING & PROSPECTIVE CUSTOMERS

The American Boiler Manufacturers Association (ABMA) is a national trade association representing companies in the commercial, institutional, industrial, heat recovery and electricity-generating boilers and combustion equipment. ABMA advocates, connects and advances the interests of the boiler industry.

We are pleased to share our 2017 Buyers Guide which is a great resource to find companies with a strong sense of corporate responsibility and integrity. ABMA members are the recognized leaders in their respective market segments, providing innovative solutions to the most complex energy and environmental needs.

Through ABMA, our members embrace the challenges of an ever-changing regulatory and code environment and lead the advocacy on behalf of the industry. Our members understand the impact of these requirements and are prepared to offer practical and cost-effective solutions. Together, we foster innovation to meet the challenges across all industry sectors.

We hope you find the Buyers Guide as a worthwhile resource. For your convenience, the "Guide" is also available in an electronic version on our web site at www.abma.com.

Please contact us at info@abma.com if we may be of further assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott Lynch", is positioned above the printed name.

Scott Lynch
President & Chief Executive Officer

WE'VE WORKED BEST UNDER PRESSURE FOR 100 YEARS.

Of course, that's the only way to last in the boiler business. Since 1917, we've been building rugged units that take the heat for decades, and today we supply a complete line to meet any need for steam, hot water, or waste heat recovery.

Contact us for a quote.

The *better* boiler burner.

The FDR(X) Multi-Fuel, Forced Draft Register Burner is a complete packaged unit housing a windbox, air register, ignition assembly, fuel train, flame safety control, combustion control, FGR (Flue Gas Recirculation) system, and a forced draft blower.

Webster, the leader in multi-fuel boiler burners, combines established technologies, advanced control systems and energy efficiency to help industrial customers reduce fuel consumption and lower emissions.

To improve your boiler's performance, contact Webster today.

70 BFS INDUSTRIES, LLC

1946 • YEARS OF EXCELLENCE • 2016

BFS INDUSTRIES: A TRUSTED PARTNER FOR OVER 70 YEARS

Boiler room and diesel generator support equipment represent substantial investments, and they certainly are not to be taken lightly. That's why,

when the need arises, many in the industry turn to one of the most experienced and knowledgeable experts in the field – BFS Industries!

For over 70 years, BFS has provided boiler room and diesel generator support products for industrial applications of all types. Our extensive product line includes packaged deaerator systems, boiler feed/condensate return systems and oil pumping systems. BFS' new division, Critical Fuel Systems, is focused on the fast growing "Mission Critical" diesel fuel market for data centers, hospitals and other emergency back-up power applications.

We've worked hard to meet the diverse needs of our customers, offering quality products backed by the highest level of sales and technical support. Contact us today, and see why we're considered the experts in the industry.

Steam You Can Depend On...

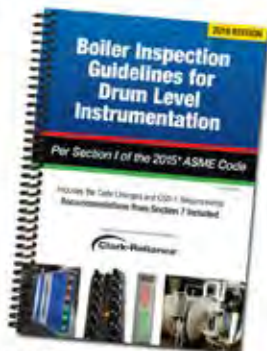

**Eye-Hye[®]
SmartLevel[™]**
Boiler Level Indication System

New intelligence "senses the sensors" to notify operators when probes need cleaning

- assures the most accurate, dependable and reliable water level
- eliminates need for frequent blowdowns
- reduces operator exposure to hazardous areas
- expert-verified installation (Free, all-day on-site review to verify compliance to Section I of ASME Code)

Remote indicators can be located up to one mile from the boiler... designed for efficient communication now and in the future.

Free!
visit ...

Burner PRO

FLAME SAFEGUARD CONTROL

EN 298-2012 Approved

Features:

- Non-volatile lockout capability
- Proof of fuel valve closure
- Air-flow proving
- Remote and local reset
- Choice of UV scanners
- Check /Run test and calibration aid
- 110VAC and 230VAC models available
- Fast payback with low capital investment
- Functionally compatible with controls in its class
- SMART LED's for status, flame strength and diagnostics

Scanners

UV1AL

UV90L

60-2944-1 Wiring Base
(for "F" series only)

United Technologies

Detroit® Burner Systems

Our field proven Burner Systems combine high efficiency and reliability as well as meet virtually all existing federal and state air quality standards, including Boiler MACT. Detroit® Burner Systems are applicable to both packaged and field erected boilers and include Low NOx, Vertical Fired, Co-Fired, Start-Up and Auxiliary Burners.

Vertical Fired Burners

- Convert coal to gas
- Turnkey retrofits
- Reduce maintenance
- Improve reliability
- Reduce emissions
- Easy installation
- Optimize heat transfer
- Lower capital cost

Co-Fired Burners

- Enhance performance of existing solid fuel grate fired combustion systems
- Gain fuel switching flexibility
- Increase efficiency
- Improve load swing response
- Lower operating costs
- Recover boiler derate
- Resolve emissions problems

Detroit® Burners fire natural gas or fuel oil in standard capacities which range from 15 to 190 MBtu/Hr and can be installed in multiples to meet virtually any requirement for input capacity or flame length. Every burner is supported by Detroit Stoker Company's worldwide & knowledgeable construction, field service and engineering groups.

DO YOU MANUFACTURE

OR PROCESS

OR

REFINE

OR PRODUCE

OR PROVIDE

?

WE MAKE A BOILER FOR THAT.

With a full line of industry-leading, energy-efficient, low-emissions boiler room solutions, available in any size for any application, Cleaver-Brooks has a solution that's right for you. Cleaver-Brooks fully integrated systems, including boilers, burners, controls and auxiliary equipment, supply the most efficient solutions in the world. To see how Cleaver-Brooks is making businesses run better in your industry, visit our case study library at cleaverbrooks.com/casestudies or call 800-250-5883 to locate your local rep.

PICK UP STEAM WITH VAPOR POWER

Built to Last

Vapor Power steam generators, thermal fluid heaters, and electric boilers perform generations. We integrate extensive quality measures into our design and manufacturing process, and our after-market retrofit upgrade kits ensure top-grade performance decade after decade.

With over a century of experience, Vapor Power provides reliable, robust performance combined with customer-centric attentiveness for a trouble-free buying process. To make things even easier, we deliver a tailored system with controls customized to meet your specific needs. Experience the Vapor Power Advantage.

Rapid Start approx. 5 min.

High Turndown Ratios increased efficiency + reliability = reduced costs

Compact Size and Weight more floor space/less expense

Coil Design multiple coils with thicker walls

High Quality Steam dry steam levels up to 99.5%+

Reduced Downtime significantly reduced maintenance

Burner Placement easy viewing and accessibility

The logo for ValvTechnologies, featuring the company name in a white, sans-serif font inside a blue oval shape. The background of the entire advertisement is a close-up photograph of a complex industrial valve assembly, showing various metal components like flanges, pipes, and a large spherical ball valve handle. The lighting is dramatic, highlighting the metallic textures and creating strong shadows and highlights. In the top left corner, there are several thin, parallel lines in red, green, and blue, suggesting a high-tech or digital theme.

VALVTECHNOLOGIES[®]

www.valv.com

ZERO
LEAKAGE
Valve Solutions

ENGINEERED PRODUCTS FOR SEVERE SERVICE APPLICATIONS™

ValvTechnologies is the global leader in the design and manufacturing of high-performance, zero-leakage metal-seated ball valve solutions for severe service applications. We're committed to providing the best isolation solutions to ensure customer satisfaction, safety and reliability with improved process and performance. You'll recognize the value of ValvTechnologies as a proven, dependable partner.

IF YOUR FAN ISN'T PART OF THE SOLUTION, IT'S PART OF THE PROBLEM.

If your fan shows signs of wear, corrosion, abrasion, or unbalance, it's time to call Robinson Fans.

A Robinson Fans' diagnostic inspection will confirm whether you should repair, rebuild or replace your fan, regardless of original manufacturer. A redesigned or upgraded fan will increase capacity and improve efficiency.

To schedule a visit, call 724.452.6121 or visit [Robinson Fans.com](http://RobinsonFans.com).

THE FIRST GROOVED MECHANICAL COUPLING FOR STEAM

DESIGNED FOR USE ON COMMERCIAL AND INDUSTRIAL STEAM APPLICATIONS

Eliminate the need to
weld steam systems

- Available in 2–8" | DN50–DN200 sizes
- Pressures up to 150 psi | 1034 kPa | 10 bar
- Components designed in accordance with ASME B31.1, ASME B31.3 and ASME B31.9 codes to ensure technical confidence and reliability

SCR
STRATEGIC CONTRACT RESOURCES

Contract Personnel
Direct Hire Recruiting
Executive Search

Strategic Contract Resources (SCR) is an international supplier of personnel to the petrochemical, oil & gas, power, renewable power, and related process industries. We provide highly skilled project personnel and candidates for direct hire employment to help organizations source and hire more efficiently, access better talent, and better control hiring and turnover expenses.

In our 15th year serving the energy sector, the SCR team remains involved in the industries we serve – from attending industry tradeshows, to speaking at conferences, and maintaining memberships in industry-related professional organizations, we continue to broaden our network. At SCR, our industry involvement is what sets us apart, we are actively seeking-out top talent from our networking efforts and strategically matching that top talent in

roles where they will excel. SCR only refers candidates who have received top referrals for their knowledge, experience and motivation. We will supply the candidates who match your exact requirements, while meeting all project deadlines.

At SCR our responsibility is to provide project personnel and direct hire recruiting services in a timely manner and minimize our clients' costs. SCR fully screens all personnel for both qualifications and soft skills required to be successful within our client's environment. Our industry knowledge and strenuous screening process results in SCR providing only the top-qualified personnel, which saves you time and money.

To learn more, visit www.scrllc.net,
or call us at (678) 784-6112.
