REBUILDING AMERICA'S MORAL CONSENSUS - LOVE YOUR ENEMIES
Arthur Brooks, American Enterprise Institute

The problem in American public life today isn't excessive anger; it's a culture of contempt. Across the political spectrum, we hear that those who disagree with us are not just wrong, but our enemies—worthless and morally defective. This is warping political discourse, tearing us apart as people, and even wrecking our health. But there is a way forward. Drawing on ancient wisdom, the latest findings in behavioral science, and examples from history's greatest leaders.

Arthur Brooks reveals how we can rebuild America's moral consensus, restore a vibrant competition of ideas, reject divisive leadership, and find love in our hearts, not just civility and tolerance, for those with whom we disagree.
