FOR IMMEDIATE RELEASE

The American Boiler Manufacturers Association Announce BOILER 2021 – ABMA Boiler Technology Conference & Expo

Vienna, VA – January 20, 2020 – ABMA is excited to announce the creation of BOILER 2021 – ABMA Boiler Technology Conference & Expo taking place October 12-14, 2021 at the Hyatt Regency in Dallas, TX.

BOILER 2021 will bring together the boiler supply chain and feature a two-day tradeshow and educational sessions along with member & end-user tours and new product announcements.

This first of its kind event will share the latest boiler technology advances and educate on all facets of the boiler room from new product selection and installation to maintenance and retrofitting among other topics.

BOILER 2021 is part of a strategic shift for ABMA by focusing on the end-users of our products from the commercial and institutional to industrial and utility sectors.

“BOILER 2021 addresses an industry need by bringing together the boiler supply chain to educate our customers and those working with boilers to ensure the safe and efficient operation of our products”, stated Scott Lynch, ABMA President & CEO.

BOILER 2021 will also feature a new awards program recognizing entire project teams including the ABMA member manufacturers and end-users.

ABMA will open exhibit sales to its members in June of 2020 and general registration will begin approximately one year prior to the event dates.

ABMA will be launching BOILER2021.com in the coming months. To obtain more information on ABMA and stay up to date on the BOILER 2021, please sign up to receive ABMA’s Boiler Weekly by [clicking here](#).

About ABMA

Since our founding in 1888, the American Boiler Manufacturers Association (ABMA) has advocated for the safe production and operation of boilers, facilitated advances in energy efficiency, and provided solutions for our member companies. Throughout our history, the boiler industry and our member base have relied on the ABMA to lead the industry as it tackles challenges and embraces opportunities in our constantly evolving sector. Through participation with ABMA, our members are better informed, connected, and positioned to thrive in today’s global boiler industry. To learn more, please visit www.ABMA.com.
