abma.com

Since our founding in 1888, the boiler industry and our member base has relied on the American Boiler Manufacturers Association (ABMA) to lead the industry as it tackles challenges and embrace opportunities in our constantly evolving sector.

## OUR FOCUS:

### Advocate

ABMA is the regulatory voice for boiler manufacturers in Washington and the key influencer in standard-setting for the boiler industry.

### Connect

ABMA brings together thought leaders, from all sectors of the industry, to foster innovation and safety in today's boiler industry.

### Advance

ABMA is raising boiler industry awareness and enacting workforce initiatives to engage the next generation in order to build a stronger and more diverse industry.

Learn more about ABMA programs, events and resources, visit [ABMA.com](http://ABMA.com).

*“ We live in a world where companies who consistently provide solutions will go further and thrive. Through our ABMA membership, we have access to the knowledge, training, resources and a network of peers in the boiler industry that enables us to be prepared for what lies ahead. ”*

Earle Pfefferkorn,  
President, Boiler Systems  
Cleaver-Brooks

## ABMA Members

### Offering Solutions to Industry

Through ABMA, our members embrace the challenges of an ever-changing regulatory and code environment. ABMA leads advocacy efforts on behalf of the boiler industry. Our members understand the impact of these requirements and are prepared to offer practical and cost-effective solutions. Together, we foster innovation to meet challenges across all industry sectors.

Through participation with ABMA, our members are **better informed, connected, and positioned** to thrive in today's global boiler industry.

#### Through ABMA, our members:

- **Connect** and build enhanced relationships with influential decision makers and top industry leaders.
- **Influence** federal regulations impacting boilers and standards focused on boiler manufacturing and operation.
- **Obtain** an insider's perspective on current and future economic, technical and boiler industry trends.
- **Receive** access Members-Only resources including industry statistics, white papers, and technical reports.
- **Address** workforce development challenges through ABMA partnership and recruitment opportunities.
